

FILMONA MESFIN

Architect | 3D Visualizer

+251 91 166 3940 gideyfilmona@gmail.com www.linkedin.com/in/filmona https://filmonamesfin.github.io/

SUMMARY

Designer + Visualizer with over 5 years of making interiors come to life before they're built. I turn floor plans and ideas into stunning, photo realistic 3D visuals that wow clients and align production teams. Skilled in 3D visualization, interior fit-out, and furniture design — with a passion for faster, smarter presentation workflows. Whether freelance or in-house, I help teams see the finish line clearly.

EDUCATION

Bachelor of Science in Architecture

Addis Ababa University
February 2020

- Actively participated in the Accessibility Seminar hosted by the Disability Development Initiative (DDL) , December 2018

SKILLS

Professional

- Architectural Design
- Interior Design & Space Planning
- Fitout Design
- Furniture design & product development
- 3D Modeling, & photorealistic 3D visualizations
- Walkthrough Animation & Still Renderins
- Presentation & Layout Design
- Video Editing
- Project Managment
- Creativity Critical Thinking
- Teamwork & Problem Solving

Professional

- Autodesk Revit
- Blender
- SketchUp
- AutoCAD
- D5
- Lumion
- 3ds Max
- Adobe Photoshop
- Adobe Illustrator
- Adobe Premier Pro
- Adobe InDesign
- Microsoft Office Suite

PORTFOLIO

EXPERIENCE

Senior Designer - 3D Visualizer & Designer Technostyle Business Group

05/2025 - Ongoing
Addis Ababa, Ethiopia

- Developed custom furniture and interior design solutions aligned with client needs and production capabilities.
- Cut manufacturing errors by 20% across 10+ concurrent furniture and fit-out projects by building precise 3D models and layout plans that flagged production conflicts before fabrication.
- Collaborated with production and site teams to ensure design feasibility and brand consistency.
- Slashed client revision cycles from 4 to 2 rounds per project by delivering photorealistic renderings and lighting plans in Lumion and D5 that matched final build quality on first review.
- Produced photorealistic interior visualizations, floor plans, walkthroughs, and elevations for every scheme presented
- Collaborated with design and production teams to ensure visual outputs accurately reflected design intent.
- Supervised on-site implementation of interior and fit-out designs, ensuring high-quality finishes, technical accuracy, and client satisfaction.

Interior Designer - Space planning & 3D Visualization Parametric interior

04/2021 - 11/2024
Addis Ababa, Ethiopia

- Grew studio sales by 15% by designing graphic presentation decks and photorealistic visualization packages that converted client pitches at a higher rate than previous visual formats.
- Delivered 100% client satisfaction across 10+ residential and commercial projects, using detailed layout plans, walkthrough animations, and still renderings to close the gap between concept and built outcome.
- Cut material review time by 30% by standardising a lighting and material approval workflow in Blender, SketchUp and D5 — adopted across the team within one month of rollout.
- Coordinated directly with architects, contractors, and site teams to ensure photorealistic design presentations matched construction tolerances, with zero design-to-site discrepancy on all 10+ projects.

Interior Designer - Space planning & 3D Visualization Majestic Interior

11/2020 - 04/2021
Addis Ababa, Ethiopia

- Managed 10+ residential and commercial projects from concept to handover, hitting 100% of deadlines across a 5-month tenure in a fast-turnaround studio environment.
- Raised client engagement during pitch stages by introducing photorealistic 3D visualizations and layout plans in place of static mood boards — directly contributing to a measurable uptick in first-meeting conversion.
- Refreshed material and finish palette across active projects using trend-led graphic design and aesthetic curation, improving perceived design quality without increasing project budgets.
- Delivered customized design solutions aligned with client goals and space requirements.
- Enhanced aesthetics and functionality through innovative material selection and trend-driven design approaches.

Architectural Intern Hager Consult

09/2017 - 01/2018
Addis Ababa, Ethiopia

- Produced technical drawings, 3D models, and photorealistic visualizations for residential and commercial schemes, used directly in client presentations under senior architect supervision.
